N.B.—The reason of so few discharges of bills of sale, &c., being registered is mainly owing to the difficulty of proving the certificate of satisfaction as required by the Act (No. 8 of 5th Vic.), viz., the acknowledgment by the mortgagee of his signature to the certificate of satisfaction or proof of execution by said mortgagee by one of two witnesses upon affidavit before the Registrar-General or his deputy. For this reason the greater portion are allowed to lapse.

* Loan raised by Colonisation Commissioners. † Aid from Imperial Government. ‡ Aid to Revenue by issue of Bond and Treasury Bills.
§ Immigration ceased in these years.

NOTE.—Prior to 1851, all remittances to the Land and Emigration Commissioners were carried to account by the Colonial Treasurer as sums *expended* on immigration, and the receipts in England by the Land and Emigration Commissioners were never included in the accounts of the Colony—an adjustment of accounts was, however, made in the year 1853.

* In this and following years the amount in this column is increased by the special grant for Free Reference Library; it also includes (always) an amoun received from the Government to be expended on matters connected with the Country Institutes, as per the following column.
† Special Grant of £2,000 for purchase of pictures at the Melbourne Exhibition, for the National Gallery, included in this amount.
‡ An alteration has been made in the financial year, which will terminate in future on June 30, instead of September 30, therefore the circulation of books, the receipts, and the expenditure in this line are for nine months only.
‖ This is only an estimate, as there was no library examination in 1883.
¶ This is the final return for the S. A. Institute, which ceased to exist on June 30th, 1884, its place being taken by the Public Library, Museum, and Art Gallery of South Australia, and by the Adelaide Circulating Library, both of which commenced operation on July 1st, 1884.

[4] Including land under permanent artificial grass in all the colonies except Western Australia and New Zealand. *See* footnotes 2 and 8 to Table XV., *post*.
[5] Including beans and peas, except in the case of New South Wales and New Zealand.
[6] Including land in fallow in most of the colonies. *See* footnote No. 3, Table XV., *post*.
[7] For explanation of apparent falling off in the shipping returns of Queensland. *See* footnote to Table IX., *post*.

NOTE.—In consequence of persons leaving by sea without their departure being recorded, there is no doubt that, in most of the colonies, the estimated population, as given in the table, is higher than the actual population; and although it may be possible, in the case of a continental colony, that the loss by sea may be made up by overland immigration at the expense of its neighbours, yet, until some better system of recording the departures by sea is adopted, the figures for the insular colonies and for the whole of Australia and the whole of Australasia will always overstate the truth.

[1] On the 30th June, 1885, the estimated population of Victoria was 973,403, viz., 517,726 males and 455,677 females.

[2] On the 30th June, 1885, the estimated population of New South Wales was 947,986, viz., 527,917 males and 420,069 females.

[3] On the 1st October, 1885, the estimated total population of South Australia was 320,451.

NOTE.—The Immigration and Emigration in this table is by sea. No official account is, or can be, taken of the number of persons going overland from one colony to another.

[1] The figures in these columns understate the truth. Many persons leave all the colonies by sea without their departure being noted.

[2] In consequence of the Emigration returns being defective, as stated in the last footnote, the figures in these columns are too high.

[3] According to Imperial returns, the number of persons who left the United Kingdom for the Australasian colonies in 1884 was 45,944, and the number who returned to the United Kingdom from these colonies was 8,694. The excess in favour of departures was thus 37,250.

NOTE.—The financial year terminates on the 30th June in Victoria, but on the 31st December in all the other colonies. The net revenue is given for Victoria, but the gross revenue for New South Wales and probably also for the other colonies. See paragraph 7 of Report *ante*.

[1] The amounts in this column are made up of Excise duties, including licences imposed for revenue purposes; duties on bank notes; stamps, other than those for fees of office; legacy, succession, and probate duties; property and income taxes; and any other impost, payable to the General Government, levied distinctly as a tax; but excluding fees, licences, and charges for special services rendered.

[2] According to a preliminary statement made up in the Treasury and distributed to Members of the Legislative Assembly, the figures for Victoria during the year ended 30th June, 1885, were as follow:—Revenue from Customs, £1,919,538; other taxes, £624,162; from Crown lands, £666,845; from Railways, £2,200,067; from other sources, £880,041—Total revenue, £6,290,653; estimated total expenditure, £6,212,517. The estimated mean population of the same period was 960,000; therefore the revenue per head was £6 11s.; the expenditure per head was £6 9s. 5d.; and the taxation per head was £2 13s.

[3] The figures for Tasmania are subject to future revision.

[4] The proportion of the revenue of Victoria and New Zealand derived from "Other Taxes" has been partly estimated.

[5] In calculating the amounts for Victoria, the mean population during the year 1883-4 (930,940) has been taken. For the other colonies the figures of mean population shown in the last column of Table I. have been used.

* Where asterisks occur the information has not been furnished or cannot be completed.

[1] On the 30th June, 1885, the Public Debt of Victoria was £31,757,407. The estimated population at that date was 973,403, and the approximate revenue of the financial year ended with that date was £6,290,653. The amount of indebtedness per head was thus £32 12s. 6d., and the debt was equivalent to 5·05 years' revenue.

[2] New South Wales has just (7th October, 1885) floated in London a fresh loan of £5,500,000, which increases her debt by that amount.

[3] Including £959,300 contracted for railways in the Northern Territory.

[4] For the old provincial loans of New Zealand no details of the purposes for which they were raised can be given; but out of a total of £21,800,954 expended from the Loan Account since 1870, £11,616,754 was for Railways, £542,229 for Waterworks (gold-fields only), £2,093,942 for Immigration, and £7,548,029 for other purposes. The Accrued Sinking Fund of New Zealand amounted on the 31st December to £2,983,403. The net liability was therefore £29,877,579.

[5] In calculating these results, the populations on the 31st December shown in the fifth column of Table I. have been used.

[6] In calculating these results, the figures of public revenue given in Table IV. have been used.

[1] In consequence of vessels with cargoes on board which call at Sydney and Newcastle being counted at both ports, the figures for New South Wales somewhat over-state the truth.

[2] The figures relating to Queensland have been much smaller in the last two years than in previous ones, in consequence of vessels arriving at and departing from Queensland ports, but which happen to put into other ports of Queensland on their voyage, being only counted once, viz., at the final port of arrival or departure, instead of at each port of call as in previous years. It has been pointed out that the footnote to a table similar to this in the Australasian Statistics, 1883, was not strictly correct, inasmuch as vessels engaged solely in the coasting trade have never been included in the returns of Queensland.

[6] Including 170 miles of private lines, of which 122 miles are guaranteed by the Government. These were constructed at a capital cost of £1,328,445, and in 1884 yielded a gross revenue of £85,693, whilst the working expenses amounted to £75,195.

[7] The figures for New Zealand are for the year ended 31st March, 1885. A private railway, 91 miles in length, is included.

[1] Including land sold by private contract, &c.

[2] The purchase money of land selected during 1884 in Queensland, Western Australia, and New Zealand—which was not furnished—has been calculated at the estimated rates of 20s., 10s., and 30s. per acre in the three colonies respectively. In Tasmania the purchase money of land sold by auction is not distinguished from that of land selected, but the total amount of purchase money was £96,392.

NOTE.—The State system of education is compulsory and un-denominational (or secular) in all the colonies, and Western Australia is now the only colony which grants assistance to denominational (private) schools. Public instruction is free in Victoria, Queensland, and New Zealand; but fees are charged in the other colonies, although they are partially or entirely remitted in cases where the parents are unable to pay them. The prescribed school age differs in the various colonies; in Victoria it is from 6 to 15 years, in New South Wales from 6 to 14, in Queensland from 6 to 12, in South Australia from 7 to 13, in Tasmania from 7 to 14, and in New Zealand from 7 to 13 years. For a complete account of the educational systems of the various colonies, see *Victorian Year-Book* 1880-81, pp. 431 to 459.

[1] In giving the number of "scholars on the rolls," the colonies have not adopted a uniform principle. The *net enrolment* (or number of distinct children who attended for the whole or any portion of the year) is given for Victoria, New South Wales, and Western Australia; the *mean quarterly enrolment* for Queensland and New Zealand; the number on the rolls at the end of the year for Western Australia; and, it is believed, the *gross enrolment during the year* for Tasmania. In order to give some idea of the relation of these numbers to each other, it may be stated that in Victoria, in 1884, the *mean quarterly enrolment* was 7⅔ per cent. less, and the *gross enrolment* 18 per cent more, than the net enrolment.

[2] Including 1,075 pupil teachers, but exclusive of 556 work-mistresses.

[3] These figures have been estimated, as information respecting the sexes was not supplied for the present return.

TABLE XV.—AGRICULTURAL STATISTICS, 1884-5.—LAND IN CULTIVATION.

*** The Agricultural Statistics in most of the colonies are collected in the months of February or March of each year. The present returns are for those months of 1885. In calculating the rates of tillage per head, the population at the 31st December, 1884, has been taken.

[1] Including beans and pease, except in the case of New South Wales and New Zealand.

[2] In addition to crops sown for the purpose of being cut green for cattle, this column contains the following areas laid down in permanent artificial grass in the colonies named:—Victoria, 327,065 acres; Queensland, 12,097 acres; South Australia, 23,217 acres; Western Australia (not returned); Tasmania, 188,014 acres. For extent of such land in New Zealand, see Note 8.

[3] In the returns of some of the colonies this column embraces land in fallow as well as land under crop. The following are the areas in fallow included in the returns of such colonies:—Victoria, 183,197 acres; Queensland, 12,199 acres; South Australia, 450,536 acres; Western Australia, 4,739 acres; Tasmania, 21,016 acres; New Zealand, 159,324 acres.

[4] Including 664 acres under turnips, carrots, parsnips, cabbage, and beet, which produced 5,472 tons; 1,413 acres under mangel wurzel, which produced 21,935 tons; 1,750 acres under onions, which produced 11,816 tons; 1,402 acres under tobacco, which produced 7,893 cwt.; 219 acres under chicory, which produced 1,309 tons; 1,737 acres under hops, which produced 14,053 cwt.; 2,329 acres under grass seeds, which produced 35,559 bushels; &c.

[5] Including 49 acres under cotton, which produced 12,050 lbs.; 57,687 under sugar-cane, of which 29,930 acres were productive and yielded 33,361 tons of sugar; 352 acres under arrowroot, which produced 574,768 lbs.; 457 acres under oranges, which produced 141,285 dozen; 731 acres under bananas, which produced 639,344 dozen; 312 acres under pine apples, which produced 101,512 dozen.

[6] Including 3,342 acres under turnips, which produced 25,058 tons; 2,390 acres under grass seeds, which yielded 30,847 bushels; and 7,815 acres in gardens and orchards. The remainder consisted of fenced and cleared land, not strictly under tillage, and devoted to pastoral purposes.

[7] Including 10,056 acres under pease and beans; 4,870 acres under mangolds, beet, carrots, parsnips, &c.; 1,228 acres under hops; and 79 acres under tobacco.

[8] In the figures for New Zealand, the land under permanent artificial grass, amounting to 5,202,164 acres—of which 2,592,492 acres had been, and 2,666,342 acres had not been, previously ploughed—is not entered as green forage, nor, with the exception of 56,670 acres, embracing some of the ploughed and some of the unploughed portion, the grass on which was mowed for hay, is it included in the total area under tillage, as in the other colonies. Were the whole so placed, it would bring the land under tillage up to 6,493,729 acres, or to 11·51 acres per head of the population.

[1] It is believed by the Registrar-General of Fiji that the births, deaths, and marriages here given are less than those which actually occurred.

[2] The total area alienated at the end of 1884 was 350,726 acres. The amount realized by the State was only £25,868, which, however, represents the price of but a small proportion of the acreage alienated. The majority of the grants issued were for lands acquired by whites and others previously to annexation, and these received their titles at the nominal price of One shilling.

[3] In addition to the live stock referred to in these columns, 11,429 angora goats were kept on the islands.
